BEST GENSET SOLUTIONS

BUSINESS - CRITICAL POWER SOLUTIONS

From homes to hospitals and beyond, Cummins Power Generation products inspire confidence and keep the lights on. Cummins Power Generation provides efficient, fully-integrated systems built for reliability in uncertain circumstances. We're here to keep you up and running, no matter what.

Cummins DCEC (Dongfeng Cummins Engine Company Ltd.) and Cummins CCEC (Chongqing Cummins Engine Company Ltd.) are 50-50 joint ventures between Cummins USA and China. These engines are considered genuine Cummins engines and are backed by Cummins worldwide warranty.

The B, C, L, and NT series are widely known as the workhorse of the Cummins engines family, with widespread use, easy maintenance, widely available spare parts, and strong performance, they are suitable for use in generating set applications as well as other usages.

Cummins-powered gensets are typically coupled with Stamford generators of matching capacities. You can trust Cummins Power Generation for keeping your electricity On - all the time.
